

Cash money for every one!

What? A demonstration against vouchers, structural racism and the “Lager”-system

When? Friday, April 25th at 2:00 PM

Where? Start at S-Bahnhof Oranienburg. From there we'll go through Oranienburg till the district administration (“Landsratamt”) and social administration (“Sozialamt”).

Cash money for every one!

What? A demonstration against vouchers, structural racism and the “Lager”-system

When? Friday, April 25th at 2:00 PM

Where? Start at S-Bahnhof Oranienburg. From there we'll go through Oranienburg till the district administration (“Landsratamt”) and social administration (“Sozialamt”).

In Oberhavel we, refugee people, received vouchers instead of cash money just because we are seen as foreigner people. **This practice increases our isolation and our exclusion.** Since we only have vouchers to buy our daily products, we are automatically excluded and touched of “the others” at the moment of paying. Vouchers are a form of racist discrimination. And besides of it, with vouchers you can just buy specific products in some supermarket. Another important fact is that vouchers expire very quickly, so you can’t save any money.

Despite all the tries to fight the voucher-system, the district administration Oberhavel and especially the parliamentarian Karl-Heinz Schröter keep maintaining this racist politic. This is the reason why we organized a demonstration in Oberhavel on the 25th of April 2014. In this way, we want to fight against this racist practice and for the suppression of vouchers.

In fact, the use of vouchers is implemented racism and participates in the bad treatments of refugees. These people are marginalized and excluded from fundamental rights: freedom of movement, freedom of choice and right of working.

Vouchers are just one example of discriminative practices which exist in oppression laws (and in people’s head). These practices are destroying people psychologically and push them sometimes till suicide.

Which life is possible under the deprivation of such fundamental rights?
